## Front End Web Development Wiz For GSA Centers of Excellence

Project Title	Front End Web Development Wiz For GSA Centers of Excellence
Summary	We are looking for a budding front end web developer/engineer to help us improve our existing site! Help the CoE accelerate IT modernization across the federal government by improving our public website!
Country	United States

#### **Project Description**

We are looking for a passionate and experienced web developer to join our team. Interns must be curious problems solvers who are excited to work within existing code to help us tackle a variety of enhancements and fixes to our site.

Github, HTML, CSS, Markdown knowledge are required.

Background: The Office of American Innovation (OAI) established the GSA CoE in October 2017 to accelerate IT modernization across government to improve the public experience and increase operational efficiency. The CoE teams provide technical expertise in support of the following areas: artificial intelligence, cloud adoption, contact center, customer experience, data and analytics, and infrastructure optimization. IT Modernization is a key driver of the President's Management Agenda.
